Odyssey™
WORLD CYCLING TOURS™

**The world
within
your
reach.**

Odyssey in Stages

TK&A's goal has long been to bring international long distance bicycling, at a reasonable price, to adventurers looking for opportunities to cycle some of the best the world has to offer. Odyssey World Cycling Tours™ is broken into 12 world stages, each lasting from 3 to 7 weeks and ranging from 829 to 1940 miles. We have taken great care to design fascinating routes through some of the most interesting and spectacular places on planet Earth.

Stage riders travel at their own expense to the beginning of a stage and home after the stage is complete. Any stage riders cycling consecutive tours have their transportation between those stages covered by TK&A.

Route

Odyssey World Cycling Tours™ will travel to the following countries: USA, New Zealand, Australia, Hong Kong, China, Vietnam, Thailand, Malaysia, Singapore, Czech Republic, Germany, Austria, Liechtenstein, Switzerland, Luxembourg, Belgium, France, England, Wales, Ireland, Northern Ireland, Scotland, Norway, Sweden, Denmark, Finland, Russia, Greece, Italy, Vatican City, San Marino, Monaco, Andorra, Spain,

Gibraltar, Morocco, Portugal, South Africa, Swaziland, Argentina and Chile. If it can be arranged and weather permitting, we will also arrange for an additional cost flight to Antarctica.

TK&A reserves the right to alter the final itinerary at its discretion. Some of the reasons might include the availability of transportation, fuel, food, potable water or the political climate of a respective country of the world.

Organizers

Tim Kneeland & Associates, Inc. (TK&A) is a Seattle based special events management company focusing on the creation and production of inexpensive bicycling tours. Since 1980, TK&A has created and produced 64 bicycling events for over 12,000 participants riding over 9,000,000 miles. Some of TK&A events have also generated a combined \$10,000,000 for charities throughout the world.

TK&A is taking the best of its 3 decades of event management experience to create the highest level of service possible for such a major undertaking. TK&A's goal to create a ride that "cycles the best of the world" while providing each rider, staff, vendor, community and country with whom we have contact, a positive and rewarding experience. Although each rider will be challenged in many different ways, Odyssey World Cycling Tours™ will quickly become one of the most powerful experiences of his or her lifetime.

Odyssey 2000®

Odyssey 2000®, the largest bicycle tour in history, was produced by TK&A for the entire year of 2000. Odyssey was clearly the most unforgettable and important year in most of our lives, filled with unbelievable personal rewards and plenty of challenges. Most of all, however, those involved

will remember most the warm and friendly people, the various cultures we were immersed within and the incredible beauty discovered in every corner of Odyssey's world.

TK&A has taken the best of this incredible event and developed Odyssey World Cycling Tours™. Our "improved" Odyssey includes many major changes such as: lowering the overall average daily mileage from 79 to 61 miles; limiting the number of riders to 125; allowing customers to sign up for one or more stages if they can't afford the time or finances for the entire year; adding more time off each week for rest, exploration and travel; increasing the average number of nights in beds to about 50%; and placing greater emphasis on selecting and training a first rate staff, capable of remaining patient and supportive even during the toughest of times.

Odyssey World Cycling Tours™ the world within your reach by bicycle

Those often out-of-reach dreams of bicycling the most appealing places on earth, inexpensively, is now possible with TK&A. Beginning January 1, 2003 you can circle the globe for one solid year of brilliant cycling. Or, if time or money are a challenge, you can sign on for one or more of the 12 stages of Odyssey. Each tour is hassle free and fully supported by TK&A's seasoned staff and cutting edge technology.

Dates

Cycle the world from January 1 to December 31, 2003 or pedal one or more of TK&A's 12 stages of the "best cycling the world has to offer".

Around-the-world cyclists

Around-the-world cyclists begin in Los Angeles on January 1 and return to Los Angeles on December 31 to celebrate the New Year with family and friends. In the course of a year, each person will cover 14,500 wonderful, though often challenging, miles in 41 countries on 6 continents.
